

General Guidelines

- This list is not exhaustive; it is designed to give you a brief overview of the types of items acceptable for eBay that Donations2Dollars accepts.
- If you have questions about if an item can be donated, please contact the D2D office at your organization, and they will happily answer any questions or concerns.
- Generally, any item with a current value of \$30 that weights under 50 pounds is a great donation.
 - Items of lower value are acceptable as well, but our goal is to average \$30 - \$50/donation.
- If you have original packaging/boxes, documentation, or any other paperwork that is relevant to the donation, please bring it—it will increase the final sold price.
- At this time, D2D is not accepting used clothing or furniture.
 - The exception is logo/branded sporting apparel that can be sold as collectibles.
 - Clothing Accessories like scarves, gloves, pins, hats, purses are acceptable.
- If you are interested in donating a high-value item (over \$5,000) it is necessary to have it appraised, and you must attach a form to your tax return.
 - Please contact the D2D office at your non-profit to discuss how we can assist in this process.
- Remember: You will receive a tax deduction for the value your donated items sell for, and Giving Credit that will help support your non-profit organization!
- eBay prohibits the sale of firearms, tobacco and liquor.
 - Probably needless to say any illegal item(s) and /or counterfeit items are also prohibited.
- **Happy Hunting!**

Business Owners

- If you own a small business, and are interested in donating unused inventory/merchandise to get off your balance sheet and/or receive a tax deduction please contact the D2D office.
